ABOUT AGV

Since 1987 AGV is a leading manufacturer of architectural aluminum building systems for commercial and residential construction industry providing single source responsibility for Glass Façade.

Its state of art fabrication unit complying with in house powder coating facilities is one of the best in India. AGV has prominent presence in private sector, public sector and as well as government departments for its engineering support.

AGV fenestration with its strong customer focused approach and continuous quest for world class quality have enable it to attain and sustain leadership in all its major line of products. The project range is spread in all over India as well abroad.

The company's businesses are supported by a wide marketing and distribution network, and have established a reputation for strong customer support. In response to changing market dynamics, AGV has gone through a phased process of redefining its organisation model that facilitates growth through greater levels of empowerment.

Fabrication unit

Powder Coating

- AGV Fenestration has state of the art Powder Coating and PVDF coating facilities in Kala Amb, Himachal Pradesh.
- The high performance, International quality powder booth system from Nordson, USA.
- The plant has automatic vertical oscillators for spraying guns which keep quality on high note.
- The Conveyorised camel type oven allows uniformity in baking of powder on Aluminium sections.
- We are doing proper pretreatment and chromate process for Aluminium on a 7 tank process.
